RAJ SHINDE

FULL STACK WEB DEVELOPER

8668865664 | Pune, Maharashtra | mail.shinderaj@gmail.com | LinkedIn | GitHub | Leetcode |Portfolio

SUMMARY

Computer Engineering student with hands-on experience in full-stack development, backend engineering, database management and AI-integrated applications. Experienced in building RESTful APIs, database-driven ERP systems and scalable web platforms using React.js, Node.js, NestJS, PostgreSQL and MongoDB. National-level hackathon finalist, DBMS competition winner and registered software copyright holder.

PROFESSIONAL EXPERIENCE

Project Based Intern, Oppidan India **06 Jul 2026 – Present**

- Developing an integrated Industrial ERP platform using React, TypeScript, Node.js, PostgreSQL.
- Built Gemini-powered invoice OCR with extraction, validation, duplicate detection, and review.
- Developed procurement workflows covering orders, GRNs, invoices, expenses and payments.
- Implemented secure REST APIs using Zod, JWT, RBAC, and PostgreSQL transactions.
- Developed an inventory tracking system integrated with ERP product and warehouse data.
- Awarded a six-month internship extension based on performance

Web Development Intern, Prayaas Youth Foundation **Dec 2025 – Jun 2026**

- Developed StreetBites, a MERN-based food donation platform connecting donors with NGOs.
- Implemented authentication, food and clothes donation workflows, donation tracking and real-time status updates.
- Integrated Razorpay for online monetary donations and developed responsive user interfaces.
- Contributed to a social-impact application that received a government-registered copyright.

PROJECTS

InvoiceFlow — AI-Powered Invoice Processing System **Oct 2026 – Dec 2026**

- Developed an invoice processing application using React, Node.js, Express.js and PostgreSQL.
- Integrated Gemini Multimodal API for automated invoice data extraction from scanned documents.
- Implemented invoice validation, duplicate detection, editable reviews and persistent database storage.

SprintFounders — Startup Platform ↗ **Feb 2026 – Mar 2026**

- Built a full-stack platform connecting founders, developers and investors.
- Integrated AI-powered sprint planning, task generation and mentorship features.
- Implemented task tracking, funding workflows, team collaboration and sprint progress monitoring.

StayNest — Property Booking Platform ↗ **Feb 2026 – Mar 2026**

- Developed a MERN-based property booking application with authentication, CRUD operations and property availability tracking.
- Designed RESTful APIs using Node.js and Express.js.
- Built responsive React interfaces, improving mobile usability by 40%.

SKILLS

Languages: Java | JavaScript | TypeScript | Python | C
Frontend & Backend: React.js | HTML5 | CSS3 | Tailwind CSS | Bootstrap | Node.js | Express.js | NestJS | REST APIs
Databases & ORM: MongoDB | PostgreSQL | MySQL | Firebase | Prisma
Tools: Git | GitHub | Postman | Hoppscotch | Vite
Core Concepts: DSA | OOP | DBMS | Authentication | JWT | RBAC | MVC | API Integration
AI Technologies: Google Gemini API | Multimodal OCR

EDUCATION

Integrated Bachelor of Engineering in Computer Engineering (3rd Year) **Sep 2024 – Jun 2028**
Pimpri Chinchwad College of Engineering and Research CGPA: 8.71/10

ACHIEVEMENTS & LEADERSHIP

- **National Hackathon Finalist:** Top 18/300+ teams at Inceptia National Hackathon; Top 6/150+ teams at Kurukshetra 2.0 National Hackathon.
- **Competition Winner:** 1st Place in DBMS Project Competition; 2nd Place in AI Project Competition.
- **President, CodeCraft X PCCOER:** Organized 10+ technical events and workshops.
- **Intellectual Property:** Government-registered copyright holder for a web application.
